Since entry requirements for all programmes may differ from one to another, applicants are advised to ascertain the exact entry requirements or assistance from the University's course counsellors from the Student Enrolment Centre prior to applying. Only applicants who meet the programme entry requirements may be admitted accordingly.

The programme entry requirements are governed by the Malaysian Ministry of Education and/or the relevant Professional Boards and/or authorities (e.g. the Nursing Board, Pharmacy Board, the Board of Engineers, the Malaysian Medical Council, etc.). For applications into Pharmacy and Medical programmes, an interview would be part of the application process.

For the Music programmes, in addition to meeting the programme's academic entry requirements, you will also be subjected to an audition for further assessment, before an offer is made to you.

1.2 Letter of Admission

Applicants, who satisfy the programme's entry requirements and, where applicable, passed the interviews or auditions, will be issued with a Letter of Admission.

Fees stipulated in the Letter of Admission are to be paid within the stipulated time period. UCSI University reserves the right to increase the fees that are applicable and payable, and that the fees mentioned/stated in the letter of acceptance shall only apply to the time stipulated therein.

For the admission of the Medicine and/or Pharmacy programmes, as there is a limited seat in the Medicine and/or Pharmacy programmes, the delay or non-forthcoming payment of fees as stipulated in the Letter of Admission will result in not securing a seat in the programme. Upon receiving the full payment of the fees as stipulated in the Letter of Admission, and the quota for the programmes have yet to be met, a Letter of Acceptance will be issued to you for admission into these critical programmes.

A Conditional Letter of Admission may be issued to an applicant whose academic results or other certified true copy of the admission documents have yet to be received at the point of application or required to fulfil additional academic requirement prior to admission into/commencing the intended programme. In the case where certified true copy document is required, the documents must be certified by the authorised and approved authorities.

1.4 Validity of Offer

Letters of Admission (with or without conditions) are valid only for a period of **two (2) semesters or eight (8) months**; whichever is shorter. When the period of offer has lapsed, and you are still keen to pursue the programme, you are required to re-apply for the programme. Such applications will then be considered under the programme entry requirements and fees applicable at the point of time of the re-application. For critical programmes (e.g. Pharmaceutical Science & Medicine), validity will be more restrictive and the offer validity period will not be applicable to these programmes.

All offers for international students are subjected to visa approval in accordance to the Malaysian Immigration rules and regulations.

1.5 University English Language Requirements

Students who successfully attained the IELTS band score must start their programme of study immediately and may not be allowed to change programme on the same student visa.

With effect from March 18, 2020, ETE Level 10 students who have not fulfilled the English requirements must repeat the course if their overall course mark is below 50 (applicable to students undertaking the Programmes which accept an entry English proficiency equivalent to IELTS 5.5 and below), or the overall mark is below 70 (applicable to students undertaking the Programmes which accept an entry English proficiency equivalent to IELTS 6.0 and above). A Certificate of Attendance will be awarded to students upon completion of Level 10. Failing to fulfil the English requirements within 12 months from the intake date may result in visa cancellation.

Local and international students must fulfil both University and programme English Language requirements before graduation.

1.6 English Requirements for Selected African Countries

There is continuous effort to map the English equivalency of various countries to UCSI University's requirements. A set of equivalency tables (see **Appendix B**) has been established for selected African countries.

2. Orientation

As in-coming new students, you are required to attend an Orientation to familiarize yourself with the environment, the Centres/Faculties/Institutes/Schools, the premise, the systems, to understand the rules and regulations and other essential procedures before starting your academic classes. The Orientation will help you to settle to the administrative requirements on a guided basis. It is also an opportunity to exchange information and develop new friendships before the start of your academic journey at the University. Students have found the Orientation to be useful and beneficial on first arriving at the Campus. Thus, all new students are strongly encouraged to attend it.

3. Commencement of Classes

Students (new and existing) are required to attend the very first classes at the beginning of the semester to avoid missing important information that may affect your lessons for the whole semester. The timetable is usually made available at the following areas:

- Notice boards of the respective Centres/Faculties/Institutes/Schools.

You are to view, check and be guided by the Academic Calendar issued yearly in November for the following academic year.

4. Deferments of Studies

4.0 General

Deferment of Studies may be defined as the approved period of non-study requested by a student. The reasons for this request must be valid and acceptable before approval can be given. This is especially applicable to international students who are residing in Malaysia on student pass. The approved deferment must be accompanied with your confirmed air ticket to return to home country during the specific period of deferment.

You are strongly discouraged to defer your studies on tolerable grounds, as it will prolong your length of studies. **The norm allowable deferment period at any one time is one (1) semester.** In the case of students undergoing the English Enrichment Programme, the norm allowable deferment period at any one time is one (1) level/calendar month. Requests for subsequent deferment of semester are unlikely to be granted but may be considered on a case-by-case basis, depending on the circumstances. **Absence for two (2) semesters or eight (8) months (whichever is longer) without notification will result in automatic termination of your studies.** If you wish to continue with the programme, you need to re-apply as a new student.

4.1 Procedure for Deferment

The request for deferment must be accompanied by a duly completed **Deferment Form**, and a confirmed air ticket indicating your departure date (for an international student). You must seek approval from the relevant Centres/Faculties/Institutes/Schools as stated in the form before submitting the duly completed form to the RO. In the event the deferment is on medical grounds, supporting documents from the respective medical centre is required.

The deadline for a deferment request is stipulated in the academic calendar. The request for deferment should be made and finalized by the stipulated deadline.

4.2 Fees in Deferment Cases

When approval is granted for a deferment request made for the following semester, the tuition fees payable for the deferred semester will be exempted. However, if the deferment is for the existing active semester, the fees will be ascertained by the GFO and the rules governing the deferment.

5. Travels during Semester & Examination

While travelling is allowed during the semester breaks or weekends, you are not encouraged to

travel during the semester indicated in the academic calendar. Requests for travel documents and letters from the RO will not be entertained. It is only on valid grounds or extenuating circumstances that you may apply for a deferment. If approved, you would need to return to your home.

Leisure travel and tour during the semester will inevitably affect the accumulation of component marks, if not the studies of a student.

6. Transfer of Programme

6.0 General

A transfer of programme is defined as a switch from an existing programme of study to a new programme, effective in the next semester.

6.1 Eligibility and Procedure

To initiate a transfer of programme, you must possess the following:

- Full acceptance into an existing programme
- Meeting of the entry requirements of the programme intended to transfer to
- Approval from the Dean of the accepting Faculty
- Approval from the Dean of the departing Faculty
- Approval from the RO
- Approval from the VPU/IO for student visa purposes (International Students)
- Approval from the GFO and the payment of the programme transfer fee of *RM150.

* The University reserves the right to change the amount from time to time without prior notice.

The duly completed **Programme Transfer Form** is to be submitted to the RO by the stipulated deadline as published in the Academic Calendar (with approvals from the Centres/Faculties/Institutes/Schools required).

In any case, the transfer cannot take effect immediately unless the transfer was promptly completed at the end of the semester, after the final examination. A sponsored student (especially by governments) is required to obtain prior approval from the sponsoring agency before the transfer request is considered.

As and when government new regulations and/or changes are enforced, the University is compelled to adhere to and execute such latest intervening rules without prior notice.

6.2 Courses Completed Previously

You are to seek advice from the Head of Department of the new programme to ascertain the number of courses that can be transferred or exempted in the new programme.

7. Government Requirements

7.0 General

Through the **Malaysian Qualifications Agency (MQA)**, the Ministry of Higher Education (MOHE), Higher Education Sector has imposed the following requirements on programmes offered by all private tertiary education providers:

(i) Mata Pelajaran Umum (MPU)/General Courses

This requirement is applicable to all students who have been admitted from July 2013 onwards.

7.0.1 Mata Pelajaran Umum (MPU)

8. Selection of Courses**8.0 General**

UCSI University students should select the courses of your choice and/or according to the advice given by your respective Head of Programmes, Head of Departments, Director, Deputy Deans or Deans.

Students shall undertake the responsibility of registering for the appropriate courses offered in the programme enrolled including the course selection period and adhere strictly to the add/drop procedure and deadlines accordingly.

8.1 New and Existing Students

The guidelines for the online course selection process will be given during the Orientation and thus, you need to be familiar with the procedure. The semester's course selection period, usually scheduled on the 12th week of the semester, although variations could occur, is outlined in the academic calendar and often runs over five (5) working days. A new international student must undergo the briefing conducted by the International Office before being able to access the online course selection module.

At the beginning of the commencing semester, you will be given approximately 15 working days to add and/or drop the pre-selected courses.

Requests for Add/Drop courses after the stipulated Add/Drop period will be subject to:

- approval from the Dean of the Faculty/Director of the Centre/Institute or designated staff of the Faculties/Centres/Institutes/Schools and,
- Penalty charges (*refer clause 8.6*).

If you receive approval to Add/Drop course after the Add/Drop period, you will not be able to perform the online transaction via the *IIS* and will be required to proceed to the RO for over the counter transactions.

8.2 Procedure

All students are required to complete the course selection online via the *IIS* at <http://www.ucsiuniversity.edu.my/currentstudent/listing.aspx>. Approval for the chosen courses is dependent on class capacity and courses offered in the semester. Online course selections eliminate the need for physical presence on Campus to perform the task.

Lectures/tutorials/labs class capacity are set by the faculty. You are to consult the faculty for alternative courses should the class you select be of full capacity.

Consequently, any delays in completing the course selection process will not be entertained except under special extenuating circumstances.

8.3 Credit Hours

In a long semester (January – April and May – August of each academic year), a full-time student is required to undertake four (4) to five (5) courses, or 15 credit hours, whichever is higher. The maximum credit hours that a full-time student is allowed to undertake is 20 credit hours.

In a short semester (September – October), a full-time student are expected to undertake approximately two (2) courses, or nine (9) credit hours or, whichever is higher. The maximum credit hours that a full-time student is allowed to undertake is 10 credit hours.

However, the Faculty/School/Centre/Institute reserves the right to approve additional credit hours per semester on a case-to-case basis. This regulation applies to all programmes except A Levels, Nursing, Pharmacy and Medicine.

Total credit hours undertaken for an academic year must not exceed 50 credit hours.

8.4 Approval of Courses

Once the course selection has been completed, you are reminded to do regular checks online for the course selection approval status, as the courses you selected may not always be approved. Your course selection may be rejected on the following grounds:

- Incompletion of pre-requisites,
- Insufficient courses undertaken in the semester,
- Number of courses exceed the maximum courses limit,
- Courses are not required for the programme,
- Course is of a different academic level, or
- Any other reason(s) by the Dean or appointed Head.

Submission of course selection does not guarantee approval for the intended course(s). Rejection of course(s) should be addressed immediately and preferably in a face-to-face consultation with the Dean of the Faculty/Director of the Centre/Institute or designated staff of the Faculties/Centres/Institutes/Schools.

8.5 Changing the Courses Selected

You are allowed to change the courses selected if the course selection has yet to be approved.

If the course selection has been approved, the changes (*refer clause 8.8*) can only be made in the early weeks of the commencing semester. There are deadlines given for the Adding and Dropping of courses and you are advised to note the period carefully.

To make the changes on the selected courses before the courses selected are approved, you may re-enter the *IIS* and re-do the course selection within the stipulated period as stated in the Academic Calendar.

8.6 Processing Fee for Late Course Selection

A charge of RM100 **per request** will be imposed on students who are completing the online course selection after the stipulated course selection due date but prior to the last day for the Add/ Drop course.

You are to proceed to GFO to settle the penalty payment before proceeding to the RO to request for activation of the grace period for the late course selection via *IIS*.

Adding and/or dropping of courses after the stipulated Add/Drop period will subject you to a charge of RM100 **per course** being dropped and/or added at an over the counter transaction (course selection function in *IIS* will be deactivated).

8.7 Attendance Listing

Once the course selection has been approved, your name will appear on the attendance list of the commencing semester. This list will facilitate the lecturer to take attendance and to ensure that you are registered for the course. If your name is not listed, then you are required to report to the RO immediately. You will not be registered for final examination if your name is not listed on the *IIS* generated attendance list.

8.8 Adding and Dropping of Courses

As outlined above, students who wish to change the courses selected may do so within a given period of the next semester. The academic calendar should be consulted to determine the exact deadline. After the deadline, a penalty of RM100/ will be imposed on each course dropped and/or added.

The fees paid for the course dropped after the stipulated due date for dropping of courses can neither be brought forward to the next semester nor could they be refunded.

Hence, you are discouraged to add beyond the deadline as some courses may have already launched the first assignment or test and disallow late-add students to accumulate their component marks. Furthermore, a late-add student may have missed out important knowledge and lessons examinable in the final paper.

8.9 Modular Courses

At times and in certain programmes, courses could be offered on a modular basis. For such courses, students are restricted from dropping the modules. However, you may choose to defer the modules by sending in a written request to both, the Centres/ Faculties/ Institutes/ Schools and the RO within one (1) month from the semester commencement date.

The list of modules offered will be provided by the Centres/Faculties/Institutes/Schools separately. The Centres/Faculties/Institutes/Schools may also vary the procedure slightly to accommodate certain situations that are essential to facilitate the operation of the modular courses.

8.10 Withdrawal of Courses

Withdrawal of courses is not encouraged but is permissible within a certain extent of time in each semester. You may have surpassed the Add/Drop deadline and attended many weeks of lessons before deciding to discontinue from the course. In such a circumstance, you may **withdraw** from the course within the due date given, i.e. on/before the deadline for course withdrawal (usually by the end of Week 8 of a semester).

The withdrawal request is subject to approval from the Dean of the Faculty/Director of the Centre/Institute or designated staff of the Faculties/Centres/Institutes/Schools. There will be a processing fee of RM100 imposed for each withdrawal per course.

The withdrawal will prohibit you from sitting for the final examination. The course will appear in your records with a “W” remark indicating that you had withdrawn from that course. A withdrawn course will not contribute to GPA and/or CGPA computation. The course fee paid can neither be brought forward nor refunded.

8.11 Marginally Passed / Failed Courses

Students who have obtained marks ranging from 40% to 49% are eligible to sit for a supplementary examination. The examination is scheduled at the beginning of the following semester. A marginal pass is also considered as a marginal fail, therefore, this examination allows you with another opportunity to prove your understanding of the course taught.

You may choose to either sign up for the supplementary examination of the marginally passed course(s), or forgo the opportunity given and re-register the course with full attempt for all components with the minimum 80% attendance.

If you choose to exercise your claim for the given opportunity, apart from signing up for the supplementary examination for the marginally passed course(s), you are also strongly advised to immediately **Add** the same course(s) as a fresh attempt for the course(s) during the Add/Drop period. This is to enable you:

- Not to be subjected to the late Add/Drop penalty that would otherwise be charged if you only register for the course(s) after failing the supplementary examination. The results of the supplementary examinations are usually released after the stipulated Add/Drop deadline.
- To accumulate marks for course components launched (e.g., Test 1, Assignment 1, and so forth) simultaneously while waiting to attempt the supplementary examination for the same course(s). Therefore, you would not be disadvantaged from any course(s) component even if you failed the supplementary examination.

Students who failed the supplementary examination are required to re-register and attempt full components of the failed course with a minimum 80% attendance in the same active semester the supplementary examination was attempted. If the retake course clashes with another new course, the new course must be dropped to retake the course failed in the supplementary

examination until the marginally passed course is passed. Exception to this will be on a case-to-case basis.

Marks for the supplementary examination are capped at 50% regardless of the overall marks obtained by the student in the aggregate. When you have successfully passed the supplementary examination, the same course may be dropped without penalty, provided the dropping of the course is done within the stipulated deadline scheduled for students with supplementary examinations. Therefore, it is crucial for you to approach the RO immediately upon the release of your supplementary examination results.

Supplementary examination applies to most of the programmes with the exception of the other programmes that have been pre-determined now or future programmes as prescribed by the Senate. You are therefore advised to refer to the respective Centres/Faculties/Institutes/Schools for overriding of specific policies and regulations.

9. Course Components

9.0 General and Structure of Courses

A course may have several components that contribute towards the final grade. You have to complete all components as prescribed for the course. Course components are spread over the entire semester for a better assessment and evaluation of your learning outcome at different points in time. The system is also aimed to enable you to gather marks throughout the semester instead of being evaluated on a concentrated 100% final examination.

Some of the common course components are as follows, although not all components will be applicable to all courses:

- Assignments
- Tests
- Quizzes
- Projects
- Laboratory work
- Presentations
- Thesis / dissertation
- Final examination

Although the above components appear in most of the courses, there may be exceptions for certain programmes and Centres/Faculties/Institutes/Schools. The composite components are determined by various factors such as appropriateness of component assessment, relevance of component evaluation, adherence to approval given by the Malaysian Qualification Agency (MQA), and/or synchronisation with common academic practices worldwide.

9.1 Cumulative Marks

Marks will be awarded to all components assessed throughout the semester. You have to attempt all components in any particular course. These marks are cumulative and will be added to the marks obtained in the final examination for an overall result. Thus, you should keep a record of the marks you obtained in each component for an overall self-assessment of your academic performance before the final examination.

Once the final examination is conducted, the total marks compiled by lecturers and Centres/Faculties/Institutes/Schools will undergo a stringent evaluation by the School Examination Board of the respective Centres/Faculties/Institutes/Schools before further verification by the University Examination Board, and subject to the review and endorsement

by the Senate before they are finally released and published. The results are usually released on the first day of the following semester, although there are circumstances in which a handful of results could be released earlier (e.g. Foundation level) or later (e.g. final year courses).

Should your overall result fall between the marginal pass/fail category (whereby you will sit for a supplementary examination), your existing marks from all the course components will be maintained and re-used in the computation of the new total marks, together with the new marks obtained from the supplementary paper. However, the overall marks taken into computation of the supplementary examinations will be capped at 50%. The supplementary examination, at present, only applies to students enrolled in the Foundation and undergraduate programmes.

9.2 Submission of Coursework

Whether assignments or projects, students undertaking courses are academically bound by the compulsory submission of coursework required in those courses. You are advised to be aware of the respective due dates and deadlines for submission, as well as the penalties for late submission. You are also advised to adhere to the stringent format required of each course/lecturer to avoid marks being deducted for non-compliance.

9.3 Attendance and Absenteeism

UCSI University regards class attendance highly and policies developed repeatedly emphasize the importance of achieving 80% attendance for each course undertaken. Students who are unable to meet the 80% attendance will be issued with a Poor Attendance Report and will subsequently be barred from sitting for the final examination by their lecturers. The barred list will be submitted by a lecturer in week 11 for a long semester, and in week 6 for the short semester.

Where courses consist of quizzes, tests and/or mid-term tests, you are required to ensure attendance in all assessments. At times, the marks of a missed component may be spread or added to other components. Absenteeism is to be reported immediately to the lecturer concerned for consideration for another assignment or a replacement test as deemed fit by the concerned lecturer.

Absenteeism may be acceptable on medical grounds and if supporting documents are presented to the lecturer. Unlike absenteeism from final examination, the decision for absences in quizzes, tests and mid-term tests, and the remedial actions to be taken is entirely within the jurisdiction of the respective lecturers and/or Centres/Faculties/Institutes/Schools.

Students who arrive late will be admitted to the class at the lecturer's discretion. If admitted, the onus is on you to ensure that attendance is taken. Habitual offenders may be referred to the SDB for action. Also, students who are caught marking attendance on behalf of others will both be barred from the examination and/or referred to the SDB.

10. Transcripts and Examination Results

The semester's examination results are available to students and parents (via *IIS*). A transcript is a document that indicates your cumulative academic performance during your tenure at UCSI University in the programme you are enrolled in. The transcript is usually requested by students at the end of a programme. To request for a transcript, you are required to approach the RO to complete a form or via *IIS* three (3) working days before the desired receipt of the transcripts.

The first transcript issued by UCSI University is complimentary with the subsequent copies to be charged at a normal fee of RM10 per transcript except for the transcript to be used for Co-Op placement.

With effect from 01 May 2008, all transcripts will adopt the grade point (GP) format with the final computation of grade points being represented by a cumulative grade point average (CGPA).

CESSATION OF PROGRAMMES

11. Policies Governing Discontinuation of Studies

11.0 General

The cessation or discontinuation of studies by an existing student may arise from voluntary withdrawal or termination.

11.1 Withdrawal

You must seek approval from the relevant Centres/Faculties/Institutes/Schools as stated in the form before submitting the duly completed form to the RO.

You may voluntarily withdraw from your studies prior to completing the programme. The reasons for the withdrawal may vary from going to another institution to financial difficulties. Such withdrawals will be processed in accordance with the procedure and requirements outlined by the GFO (please refer to Appendix C). This will include the completion of the ‘Withdrawal Form’ which includes obtaining the approval from all relevant departments and/or persons outlined in the Form.

Tuition fee refunds (if any) are guided by the University’s Refund Policies and Procedures and you are advised to ascertain the procedure. It is imperative that all rules and regulations are strictly adhered to, including settling the outstanding tuition fee (if any), failing which, the Refundable Deposits shall be forfeited.

The approval for withdrawal of an International student must be accompanied by, apart from, a duly completed Withdrawal Form, also a confirmed air ticket indicating your departure date. A Letter of Offer from the acceptance institution is also required for transfer cases.

11.2 Termination of Studies

When and if you are found guilty of any serious disciplinary offences and your prolonged stay in the country (international students) affects the peace of the country or tarnishes the image of the University, your studies will be terminated immediately.

Apart from the above, reasons for termination of studies may include any one or a combination of the following:

- Poor academic performance for two (2) or more consecutive semesters.
- High absenteeism in classes (i.e., less than 80% attendance).

- Non-response to warning letters issued.
- Unacceptable reasons in reply to warning letters.
- Advised by Dean of the Faculty/ Director of the Centre/ Institute or designated staff of the Faculties/ Centres/ Institutes/ Schools
- Submitting forged/ tampered documents.
- Rejection of student visa renewal by the MID.
- Exceeding maximum duration allowed to complete a programme.
- Disciplinary issues.

For poor academic and attendance performances, you will be issued a warning letter and may be referred to the SDCD of SAA for the necessary support and guidance. If the poor performance continues, a second warning letter will be issued. A termination letter will follow if the poor performance persists. For termination involving international students, you will be requested to surrender your passport to the International Office for cancellation of your student visa.

Where and when the causal factors for termination appear to be too severe (as deemed by the University), a termination letter may be issued without notice or warning letters. Such incidents usually relate to offences that are criminal in nature or that places the University's name at stake.

Tuition fee refunds (if any) are guided by the University's Refund Policies and Procedures and you are advised to ascertain the procedure. It is imperative that all rules and regulations are strictly adhered to, including settling the outstanding tuition fee (if any), failing which, the Refundable Deposits will be forfeited.

11.3 Appeal Process

The appeal board is set up for purpose of having a final avenue for students to appeal to. The process of appeal will be discussed and decided by an appeal board for the termination based on submitting fake documents and committing serious offences.

The Appeal Board shall comprise of the following members:

- (i) Deputy, Vice Chancellor (AR)
- (ii) Deputy, Vice Chancellor (SAA)
- (iii) Registrar
- (iv) GFO
- (v) Legal Officer

The Registrar will attend appeal against termination due to the following circumstances:

- Consecutive poor academic performances
- Poor attendance record
- Rejection student pass renewal by MID

11.4 Cessation of Academic and Administrative Services

Upon termination of studies, all academic and administrative services previously extended to you will be curtailed and ceased with immediate effect. Students whose studies have been

terminated are required to comply with the exit procedures immediately and refrained from entering the University and its premises thereafter.

11.5 Deportation

Where resistance is encountered, deportation may be exercised whereby you will be escorted to the airport to board the next flight home. Refundable deposits and surplus tuition fees may be utilized to bear the costs of your deportation.

Please note that forging/falsifying any official document such as a medical certificate is a criminal offence and can lead to a report being made to the police for appropriate action to be taken, accordingly.

EXAMINATIONS

13. Final Examination Component

13.0 General

You are eligible to sit for a final examination towards the end of each semester if the course undertaken requires this assessment.

The duration of the final examination may vary between 1.5 hours to 3 hours, depending on the requirement of the programme and the course. The venue for the final examination is usually in the Examination Hall but could be located elsewhere depending on the capacity and the logistics of the entire examination. Students are to refer to Appendix D for Examination Rules and Regulations.

13.1 Examination Timetable

The examination timetable is electronically computed and will rarely result in clashes of papers. However, if and when there is a clash, the affected students are duty bound to report the clash to the EC (examcentre@ucsiuniversity.edu.my) immediately upon the publication of the first draft of the examination timetable. As the examination periods have been stipulated in the Academic Calendar published ahead from the commencement of the academic year, you are forewarned to avoid scheduling of any activities during these periods. Therefore, the University will not entertain requests to relocate examination slots if clashes occur for personal reasons, i.e., travelling plans, other external examinations registered on your own accord, recreation/ extracurricular activities, travelling for exchange student programmes, etc. A second draft of the timetable will be published in a week's time. Should there be no request for changes, the final timetable will then be released in one (1) weeks' time and thereafter, no amendments will be entertained.

You are required to check the final examination timetable published on-line. Incorrect information recorded by you will not be entertained and absenteeism on such grounds will lead to re-registration of the said course with attendance in the future semester offered.

The examination timetable is scheduled after taking into account the entire examination papers of the University and the number of days allocated for the examination period. At times, some papers are scheduled within the same day to avoid clashes of students undertaking other courses. Negotiations will not be entertained as the examination is regarded as an assessment to gauge the knowledge, principles, concepts, theories and/or practice a student has already learnt and acquired throughout the semester.

At times, the examination period may fall within the festive seasons. While sensitive care is taken into account to rest the festive day, particularly if it is religiously inclined, the examination nevertheless will proceed thereafter. In line with universities worldwide, pleas to take leave will not be accepted.

13.2 Eligibility, Barring and Un-Barring

To meet the eligibility to sit for the final examination, you have to meet the 80% attendance requirement in the semester. If this requirement is not met, the system will bar you from the course and you will be prohibited from taking the examination.

Students are responsible to check their status (if status is barred) in the system two (2) weeks before the final examination period and take the necessary remedial actions. E.g. engaging discussions with the lecturers concerned to clarify the reason(s) for your high absenteeism, or to work out the various options to lift the bar status. Should the lecturer accept the justification, they will update your status (unbar) in the system.

Ineligibility to sit for the final examination may also be due to long outstanding and unsettled tuition fees. The GFO will check your payment record and withhold the examination token if you have outstanding tuition fees.

Students who failed to settle the outstanding fees by the last day of classes will be barred from the final examination sitting. Settlement of outstanding fees after the examination day/period will not entitle you for a re-sit and/or supplementary examination. As such, you will receive an “F” grade for the course registered and you are required to repeat the course in the next offering semester.

You are required to settle your tuition fees before the semester commences. Finance charges will be incurred for fees settled after the stipulated due date for payment but prior to the commencement of the examination period. While delays in fee payment may be tolerated on valid grounds, the onus is on you to approach the GFO to discuss an alternative and acceptable pattern of payment.

The Exam Centre will not entertain any verbal barring or unbarring of students without the receipt of the supporting documents from the lecturers and/or Centres/Faculties/Institutes/Schools and/or GFO.

13.3 Quarantine

Where and if there is a clash of examination time or unreported undertaking of different levels of courses during the semester, candidates may either be quarantined and/or merged the two (2) papers into four (4) hours or at a duration that the University deems fit.

In order to avoid clashes, you are strongly advised to select courses of the same level during the semester. Undertaking courses at different levels will subject you to the risk of clashes in the final examination timetable. The clashes in the class timetable during the semester are already an indication of a possible clash in the final examination timetable.

13.4 Examination Regulations

13.4.1 Examination Slip

As mentioned, you are required to print an examination slip approximately three (3) days prior to the final examination, Exam Centre will not be responsible for any delay in entering the examination hall should the students failed to print their examination slip on his/her examination day. Your student ID and examination slip are required to enter the Examination Hall. Without either one, you will need to approach the Finance Counter to obtain a new examination slip and/or identification tag after a penalty payment of RM5 for each item needed.

The examination slip will outline all the courses that have the final exam component and you

are undertaking for the particular semester. Where a student is barred from the final examination, a line will be drawn across the course and you are urged to act swiftly to be unbarred from the examination.

13.4.2 Prohibited Items in the Examination Hall

Certain items and materials are strictly prohibited from being brought into the examination hall. If you are caught with these items in the examination, you may be found guilty of cheating and may, on the advice of the Chief Invigilator, be dismissed immediately.

This is notwithstanding whether the examination has commenced or not, and whether the prohibited items were brought in intentionally or otherwise. The onus is on the student to check that prohibited items are not brought into the examination hall. Invigilators will check items that are allowed into the examination hall when suspicion arises. Examples of such items are outlined below:

Table 13.0: Prohibited Items in the Examination Hall

Prohibited Items	Items to be Checked
<ul style="list-style-type: none"> • Papers of any size • Caps • Books or notes • Electronic devices (smart watch, bluetooth handfree) 	<ul style="list-style-type: none"> • Coats, jackets, pockets, pants • Calculators • Calculator covers (on the floor) • Pencil cases/boxes (on the floor) • Spectacle casing (on the floor) • Dictionaries (where allowed) • Rulers • Books (where allowed) • Examination Tokens • Wallets and purses • Others

Prohibited items found in the examination hall will be confiscated and used as evidence in the Student Disciplinary Board (SDB) meeting and may not be returned to you. If you want to bring your personal and valuable belongings into the Examination Hall, you are advised to seek alternative avenues to safeguard your items. Coin lockers are provided by the Student Affairs and Alumni Division located outside of the examination hall. UCSI University will not be held responsible for the loss of any item within the premises if you fail to heed the advice of not bringing valuable items to the examination.

13.4.3 Mobile Phone in the Examination Hall

Mobile phones *may* only be brought into the examination hall **on the condition** that students keep their mobile phones **in their bags** and the bags must be placed **at the front of the examination hall or in the lockers** located outside the examination hall. All mobile phones must be switched off (including any alarms) throughout the examination

If a mobile phone is found in your possession (pockets, clothing, on your desk / chair / on the floor) or rings in your bag during an examination, the mobile phone will be confiscated. A penalty of **RM100** will be imposed to redeem both the SIM card and the mobile phone from RO counter.

Students are advised to take proper precaution with regards to safeguarding their own mobile phones or other valuable items. UCSI University will not be held responsible for the loss or theft of any items within the premises.

13.4.4 Washroom Procedures

To safeguard the integrity of the examination, you are prohibited to go to the washroom immediately upon entering the examination hall within the first 30 minutes of the examination, and towards the last 30 minutes before the examination ends. However, the Chief Invigilator on duty is authorised to exercise his/her discretion to act accordingly on needs arising under special circumstances.

You are advised to visit the washroom before any examination session. Where deemed appropriate, you may be subject to a body search by Invigilators (of the same gender). When consent is given, you are required to sign a washroom control booklet outside the restroom to indicate when and who has been to the washroom during a particular paper.

13.4.5 Seating Arrangements

At each examination session, you will be given designated seat arrangements that differ by sessions. The seating arrangements will be made available at the nearest notice boards to the examination hall, 15 minutes before commencement of the examination session. You are advised to be at the examination hall early to check your respective seat numbers.

The arrangement is fixed according to the attendance logistics. Unauthorized movement is strictly prohibited, unless otherwise instructed or requested by the Invigilators.

13.4.6 Attendance Slips and Waiting Period

If you enter the examination hall early, you have the advantage of completing the attendance slips and the details requested on the answer booklets and other documents before the examination commences. The announcement to start the examination will be made only when the hall has been put in order and/or it has reached the scheduled time to commence the examination.

The announcement pertaining the rules and regulations will be briefed by the Chief Proctor before the beginning of each session,, and you are required to listen attentively and abide by the instructions and examination regulations announced.

The attendance slip should be completed prior to attempting the questions. It will be collected at the end of the first 30 minutes for attendance affirmation. As such, you are not allowed to leave the hall within the first 30 minutes when the examination commences.

13.4.7 Examination Materials

All materials distributed to candidates at any examination session, used or unused, are to be returned to the examiner. Taking materials out of the examination hall is regarded as an offence. If you are caught bringing out the examination material from the examination hall, you will be subject to penalty as deemed appropriate by the SDB.

13.4.8 Time Keeping

As a reminder, you are advised to adhere to the following practice:

- Arrive early to check the seat number.
- Remain seated until the examination starts.
- Remain in the examination hall within the first and the last 30 minutes of the examination. Any movements within the examination hall during this period, including leaving the hall or visiting the washroom, are restricted.

The adherence to the above practice is in compliance with the time management of the examination. If you arrive after the first 30 minutes, you will not be allowed into the examination hall unless authorised by the Chief Invigilator. The delay will be regarded as absenteeism, especially if there were students who had left the hall or visited the washroom.

13.5 Absenteeism from Final Examination

The University defines absenteeism as not physically present in the examination hall during the stipulated date and time of the paper in question, under whatever circumstances.

Absenteeism in the final examination entails a serious consequence amounting to an ‘F’ grade awarded. However, absenteeism due to extenuating circumstances may be considered for a supplementary exam if supporting documents justifying the absenteeism are acceptable to the UEB. Examination absenteeism form and all the relevant documents must be submitted to the Exam Centre within five (5) calendar days inclusive of the scheduled examination day. Misreading or misunderstanding the final timetable cannot be accepted as a reason for failure to attend an examination.

If you are unable to attend the final examination due to a medical condition, you are required to submit a medical certificate issued by a doctor from either a government or private hospital, private clinic or from UCSI University’s clinic. A Medical Attestation Form duly completed by the doctor who attended to the illness must be enclosed with the medical certificate(s) should the medical certificate(s) be issued by a government or private hospital, private clinic or from UCSI University’s clinic

The medical certificate(s) must be submitted to the Exam Centre within five (5) calendar days inclusive of the scheduled examination day. Late submission of medical certificate must be supported by justification from doctors from the same clinic/hospital where the student obtained the medical certificate. Acceptance of the late submission is subject to decision of the SDB.

In the case of a student who had submitted medical certificate(s) for being absent in examination for three (3) consecutive semesters or more, the University reserves the right to reject future medical certificate(s) and to disallow the student from attempting the supplementary examination.

Medical certificate(s) will not be accepted if you are found to have fees owing to the University prior to and/or during the final examination period.

Students who submit medical certificate(s) for absenteeism may apply to attempt the supplementary paper at the beginning of the next semester. The Supplementary Examination application can be made online via the IIS Student Portal.

The marks awarded after supplementary examination will be capped at 50% (if > 50%). Please refer to *clause 13.11* for more details on supplementary marks. However, if it involves special medical condition(s), special consideration, on a case-to-case basis, will be made for non-capping of marks if it is supported by sufficient convincing medical reports to substantiate the gravity of the medical condition. If the UEB is satisfied with the gravity of the medical condition, which you suffered during the time, and date when the paper was examined, your accumulated component marks may be added to the marks obtained in the supplementary paper.

Time off slip is not acceptable for reasons of absenteeism in final examinations.

Submission of forged and tampered medical certificates will be referred to the SDB for further action. Depending on the degree of the severity of the act, the penalties imposed could be one or more of the following actions:

- Recorded warning letters.
- Award of an “F” grade.
- Suspension of a semester or more.
- Termination of studies at UCSI University.

13.6 Computations of Marks and the 40% Rule

Component marks obtained throughout the semester will be accumulated and taken into account in the computation of the final marks. This total mark will be moderated by the respective Centres/Faculties/Institutes/Schools or second examiner prior to submission to the UEB for approval, endorsement and release. The final grade will be released to the student on the commencement week of the new semester.

At UCSI University, a further ruling of 40% rule governs the accumulation of marks. Under this rule, a minimum of 40% in the final examination paper is required before the component marks of the course can be added. Otherwise, if the total marks is:

- > 40% of the final examination, the total marks will be shown;
- < 40% of the final examination, the total marks will be reduced to 40%.

The following table illustrates several examples of the 40% rule:

Table 13.1: Examples of the 40% Rule

Components	Example 1			Example 2			Example 3		
	Marks Obtained	Full Mark	40% rule	Marks Obtained	Full Mark	40% rule	Marks Obtained	Full Mark	40% rule
Assignment	20	20		3	20		10	15	
Presentation	12	15		0	15		15	15	
Project	-	-		-	-		-	-	
Mid-term test	18	20		2	20		5	15	
Quiz	-	-		-	-		-	-	
Test	4	5		1	5		3	5	
Final Exam	13	40	< 40 % (32.50 %)	35	40	> 40 % (87.50%)	32	50	> 40 % (64 %)
Total	67	100		41	100		65	100	
Final Mark (Grade)	40	(C-)		41	(C-)		65	B	

Example 1

$$\begin{aligned} \text{Final exam} &= 13/40 \\ &= 13/40 \times 100 \\ &= 32.50 \% (< 40\%) \end{aligned}$$

Therefore, the final mark is: = 40 % (instead of 67%); “C-” grade

Example 2

$$\begin{aligned} \text{Final Exam} &= 35/40 \\ &= 35/40 \times 100 \\ &= 87.50 \% \\ &= > 40 \end{aligned}$$

Therefore, the final mark is: = 41 % (3+2+1+35); “C-” grade

13.7 Cheating and Misconduct

13.7.1 Definition of Cheating

UCSI University views cheating seriously and considers both the intentional action of cheating and failure to prevent the unintentional action of cheating as a grave offence.

UCSI University adopts a broad definition of cheating as any acts, intentional or otherwise, that would provide an opportunity to enhance the performance of the students in the examination, with the use or unused, of relevant or irrelevant tools, materials and/or actions. Examples of such incidents are:

- Copying, in part or whole, from an examination paper, mathematical analysis, formulae, research or creative project or equivalent sources that belongs to another person;
- Submission of a piece of academic work that has been purchased, borrowed, stolen; or fabricated data;
- Use of notes, sources, materials from items and/or electronic devices not authorised in the examination or by the examiner;
- Collusion or making arrangements with another student to cheat, including employing a surrogate to sit for an examination or any form of academic assessment mode, in part or whole, or agreeing to be that surrogate aiding and abetting the dishonest act;
- Bringing any other unauthorised items into the Examination Hall, whether relevant or

not, whether used or not, and irrespective of the ownership.

The penalties imposed on students who are caught cheating may vary between a recorded warning letter; a Fail grade being awarded, suspension of a semester, or even termination of studies at the University. The type of penalty will depend on the degree of severity of the act.

13.7.2 Recurring/Consecutive Cheating

Students with recurring/consecutive cheating offences will be suspended for one semester or more or termination of studies depending on the degree of severity of the act.

Recurring/consecutive cheating is defined as follows:

- Being caught cheating in one paper on a particular day and again in another paper a few days after the first incident;
- Being caught cheating in course work components (such as test, mid-term test, quiz, and other reported incidents) and again in the another assessment component or final examination;
- Being caught cheating in any form of assessment in one semester and again a repeat of the incident in another semester.

Records of any cheating incidents will be recorded and kept in the respective students' files and Student Database records. These incidents will be referred by authorities to determine the future services to be provided to you and in the provision of character references requested by your future employers.

International students, who are being suspended due to a cheating offence, will have their student visas shortened or cancelled. As such, they will be asked to return to their home country for that suspended semester(s). If their visa is extended over a considerably long period, then they may maintain their visa but it will be made mandatory for them to present their homebound air ticket to the RO. Upon returning to Malaysia to resume their studies, they will be asked to show the pages in their passport to certify their departure and arrival. The University is duty bound to report to the MID any students who fail to adhere to the above regulations.

Students (local or international) who are suspended will not be allowed to:

- Transfer programmes or complete their course selection.
- Sit for any supplementary, if any. They will be required to repeat the course again.

13.7.3 Misconduct during Examination

Misconduct, which may include the act of cheating or attempting to cheat, is taken to include a broader definition. Examples of actions that constitute misconduct include the following, but are not limited to:

- Incessant talking in the examination hall.
- General disobedience of examination instructions.
- Unruly and rowdy behaviour shown towards invigilators /lecturers.
- Inability to adhere to, as well as aloofness towards examination procedures.

All academic misconduct cases are presented to and considered by the UEB. Where required, the students involved will be required to attend an interview for further clarification. Where appropriate, the cases may be referred to the SDB for further actions.

13.8 Passing Marks and Grades

You are expected to be familiar with the grading system of your respective programmes in your Centres/Faculties/Institutes/Schools. While a 50% passing mark may generally be adopted, you are advised to re-confirm with your Dean of the Faculty/Director of the Centre/Institute or designated staff of the Faculties/Centres/Institutes/Schools.

The overall grading system at UCSI University, which applies to all programmes excluding the A Levels, Pharmaceutical Sciences & Medicine, is presented as follows:

13.9 Results

13.9.1 Release and Publication

Your results will usually be published on the first day of the commencing semester. You are advised to proactively check the academic calendar for the schedule dates.

The results are published online to enable borderless access. Results enquiry via phone calls will not be entertained. Access for parents to view their children's academic performance is granted with a valid email address.

13.9.2 Withholding of Results

Results will be withheld under the following circumstances:

- On-going investigations in Cheating/Misconduct during the examination.
- Outstanding tuition fees.

13.10 Appeals and Re-Evaluation of Marks

13.10.1 General & Definition

If you are confident of an arithmetic error in the marks computed by the examiner and/or have other valid reasons, you could submit appeals for your examination scripts to be re-evaluated. However, appeals can only be made to review the final examination answer scripts. Anomalies or disagreement in marks obtained in tests, quizzes, mid-term tests, assignments, projects and/or other course components will not be entertained. The appeals are only applicable for that particular semester and within the stipulated time set according to the Academic Calendar. Backdated appeals will not be accepted.

13.10.2 Re-Evaluation Procedure

You may online apply to re-evaluate the mark by the stipulated due date as published in the Academic Calendar together with the payment of the processing fee. The payment of the re-evaluation fee does not in any way construe that the marks will be adjusted upwards. There may be instances where the second examiner may downgrade the marks if proven that the marks had been incorrectly given.

13.10.3 Outcomes of Appeals and Re-Evaluation

You will be notified the outcome of your appeals through email before the supplementary examination. Where marks are upgraded to a supplementary band, you may be allowed to sit for the supplementary examination. The outcome of the appeals is final and further appeals will not be entertained.

13.11 Supplementary Examinations

13.11.1 General and Eligibility

The supplementary exam serves as a second but final attempt for a single course enrolment for marginally failed students to demonstrate their understanding of the course. Students with marks ranging from **40% to 49%** are eligible to apply for the supplementary examination.

Supplementary examinations must be attempted during the scheduled period as published in the Academic Calendar. Requests for the examination to be brought forward or postponed will not be entertained. The same applies to students (local/international) completing your Co-op placement. Similarly, requests for a backdated supplementary exam will not be approved.

Approval for supplementary exams will be considered if:

- the aggregate marks of the other components of the course are significant for a maximum mark in the supplementary exam that enables you to pass the course. (*see Example 1, Table 13.5 below*), and
- you have settled all fees due including the supplementary exam fees.

The regulations governing the supplementary exam and computation of marks stated herein are of a general nature and may not apply to all programmes. For programmes where the computation of marks are also governed by external regulations (e.g. Architecture, A Levels, Nursing and Medicine programmes), the external requirements will prevail. Therefore, you are advised to consult your respective Dean of the Faculty/Director of the Centre/Institute or designated staff of the Faculties/Centres/Institutes/Schools on the specific requirements for such programmes.

13.11.2 Computation of Supplementary Marks and Capping at 50%

The component marks for supplementary examinations are as per the component marks of the final examination. The score will replace the one obtained in the final examination. The marks achieved in the supplementary examinations, together with the aggregate components marks will contribute to the final mark. However, if the marks obtained in the supplementary paper are lower than the previous achieved in the final examination, the higher mark will be recorded in the transcripts (*see Example 2 below*). If marks computed after the Supplementary exam are higher than 50% (e.g. 65%), the Supplementary results will be capped at 50% instead of 65% (*see Example 3 below*).

Table 13.6: Examples of Treatment of Supplementary Marks

Components	Example 1			Example 2			Example 3		
	Marks Obtained	Full Mark	Supplementary Exams' Result	Final Exam	Full Mark	Supplementary Exams' Result	Final Exam	Full Mark	Supplementary Exams' Result
Assignment	4	20	Not allowed to attempt	20	20	20	5	5	5
Presentation	0	15		12	15	12	4	5	4
Project	-	-		-	-	-	-	-	-
Mid-term test	3	20		18	20	18	20	20	20
Quiz	-	-		-	-	-	-	-	-
Test	1	5		4	5	4	9	10	9
Final Exam	38	40		13	40	9	23	60	27
Total	46	100	67	100	65	61	100	65	
Final Mark (Grade)	46	(F)		40	(F)	40 (F)	41	(F)	50 (C)
Remark	Not allowed to attempt supplementary exam as components' marks are too low; full supplementary marks (40 %) + aggregate components marks will still be < 50%			Supplementary exam's mark (9) < Final Exam (13), therefore final exam mark will be recorded. Final mark is capped at 40% according to 40% rule as the final marks weightage is < 40%			Supplementary exam's mark (27) > Final Exam (23), therefore Supplementary mark will be recorded but overall capped at 50%		

13.11.3 Procedure and Fees

To apply for a supplementary examination, you:

- Must meet the eligibility criteria (*refer Clause 13.11*).
- Register online within the stipulated duration of supplementary examination application in accordance to the academic calendar.
- Are required to make the supplementary exam processing fee payment at GFO, once approval to attempt the supplementary examinations granted.
- Must submit the Form to the Exam Centre for registration of the supplementary paper within the stipulated deadline as published in the Academic Calendar. Payment of the supplementary exam fee does not construe registration of the supplementary exam until and unless approval is granted and the registration of the paper is completed.

13.11.4 Absenteeism in Supplementary Examination

Absenteeism from the supplementary exam is not acceptable. Payments made for the supplementary paper are not refundable. If you missed your supplementary papers, you are required to re-take the course in the current semester or in the following semester.

13.11.5 Appeals and Re-Evaluation of Supplementary exam Results

Appeal to review results is not applicable for the supplementary examination. The results of the supplementary exam are final and appeals or re-evaluation will not be entertained.

13.12 Courses without the Final Examination Component

In general, the supplementary examinations are not applicable to courses without a Final Examination component.

However, if the final take-home project assignment is used solely as a final assessment component, then that component may be regarded as an equivalent of the Final Examination. If you failed that component, it is of the discretion of the Centres/Faculties/Institutes/Schools to allowing you to re-submit it (within a reasonable length of time). If re-submission is approved, you are required to pay the fee as per the amount imposed on the Supplementary Examination. This practice is highly dependent on the structure of the course and the weightage of the final project.

13.13 Improvement of Grades

There is no re-take/repeat to better the grade/CGPA of passed courses. All courses are given a single attempt, unless it is a Fail grade.

PLAGIARISM

14. Policies Governing Plagiarism

14.0 General

UCSI University regards plagiarism as an academic misconduct and treats such incidents with a high degree of severity and attention.

Plagiarism is defined as the act of submitting academic work (e.g. assignment, project, thesis, dissertation, essays, or other equivalent written assessment) with the use of academic work publicly published and produced by another person for the purpose of obtaining credit or fulfilling requirements, without the acknowledgement and consent of that person. Specifically, UCSI University further defines plagiarism as:

- The inclusion of ideas, words or sentences, paragraphs, in whole or in parts, from other sources into your work without the appropriate acknowledgement;
- The use of another person's intellectual work, including musical composition (tune or lyrics), computer programme, photographs, drawing or sketches, sculpture or research and other equivalent forms into your own work, attempting intentionally or otherwise to represent it as your own work.

In order to avoid being penalised, where in doubt, you are urged to seek clarification from the examiner or lecturer prior to submission of such work.

14.1 Plagiarism in Course Work Components

The course work components are taken to mean any take-home written assignments between the percentages of 5% to 25%. If sufficient evidence of plagiarism is found in a student's work,

the following procedure shall take place:

- 1) The lecturer/examiner of that piece of work is to gather the evidence for documentation;
- 2) Confirmation with the Dean or Deputy Dean of Faculties, Director of the Centre/Institute and member of Centres/Faculties/Institutes/Schools that the piece of work does indeed contain plagiarized work. These “members” will form the immediate committee to address this incident until the matter is resolved;
- 3) Request for you to attend a scheduled meeting with the lecturer/examiner, the Dean or Deputy Dean and members of Centres/Faculties/Institutes/Schools. This is to be completed within three (3) days from the date of discovery and with the meeting agenda extended to you. Failure to be present at the meeting may add on penalty to the case, unless proven that the absenteeism is due to extenuating circumstances;
- 4) During the meeting, you will be explained on the allegation of plagiarism and requested to clarify and respond. The Committee would allow you to admit the offence and where possible, resolve the matter informally.
- 5) You are to sign the Admission to Plagiarism Form at the meeting witnessed by the committee members (who will also be required to acknowledge the discussion with their signatures);
- 6) The penalties for such an incident are:
 - An award of a Fail grade in that particular component, where the committee members are of the opinion that the case is severe OR
 - A re-submission of the assignment within a suitable duration determined by the committee and agreed by you, where the committee members are of the opinion that the case is less severe AND
 - A stern warning letter issued by the Dean of the Faculty/Director of the Centre/Institute or designated staff of the Faculties/Centres/Institutes/Schools and recorded in your student file with the RO.
- 7) If the objectives of the meeting are unfulfilled as in:
 - Your absenteeism without notification/acceptable reasons; or
 - Your non-cooperation, or
 - Adamant denial on your part without valid evidence.

The following actions shall be executed immediately:

- An award of a Fail grade in that particular component, where the committee members are of the opinion that the case is severe; and
- A stern warning letter issued by the Dean of Faculty and recorded in your student file with the RO.

14.2 Plagiarism in a Major Project /Thesis/Dissertation

Plagiarism could occur at a higher level or in a component that carries a heavier weightage in the total assessment of the module. A heavy weightage is denoted by the contributing mark of above 25% in a take-home written component within that module.

Allocation of higher marks in such a component invariably places higher importance for that learning component. Thus, the offence of obtaining credits through dishonest means by using another person’s academic work is correspondingly higher in such an attempt. Plagiarism in this context takes the similar broad definition given in 14.0 (above) and will be dealt with accordingly to the processes outlined above.

The aim of the discussion with you also entails providing the necessary counselling to prevent future recurrence. The penalty however, is still severe and will be as described in 14.1 (6). The penalty allowing re-submission, if recommended, will cap the re-submission mark to a Pass mark, while non- re-submission will result in a Zero (0) mark for that component. If you were absent from the meeting, the incident shall be recorded as such.

14.3 Plagiarism in Group Work

Where an assignment is worked on by a group of students (i.e. more than one individual), the process of administering the incident and the corresponding penalties will be similar to those described in items 16.1 and 16.2. The exception is that the number of students will be more than one and each has to sign the same Admission to Plagiarism Form.

14.4 Repeated Plagiarism (Second Time)

Where a student is found to have committed the plagiarism offence again in whatever weighted component, similar procedures as outlined in 14.1 (1) to 14.1 (5) will apply. The members will be alerted that this is a repeated plagiarism.

In the discussion session with a student, the student would be informed of the repeated offence. The aim of the discussion is to inform the student of the severity of the repeated offence and to serve a verbal warning.

The penalty for such level of plagiarism, if proven with documented evidence is an automatic Fail grade in that module and a stern final warning letter issued by the Dean of the Faculty/Director of the Centre/Institute or designated staff of the Faculties/Centres/Institutes/Schools to be recorded in your Student File and student record database system.

Whether the objectives of the meeting are fulfilled or not, the Fail grade will be imposed. You will also be barred from sitting for the Final Examination. Thereafter, it is your decision whether to continue with the class attendance if the semester is still actively on going.

14.5 Repeated Plagiarism (Third Time)

When a student is caught plagiarizing after the second time, the inquiry meeting as stipulated in 14.2 will be convened.

The matter is reported in writing to the RO within the immediate two (2) days, and the following penalties will take effect:

- You will be suspended for a semester. A suspension letter from the RO with a copy extended to the Dean of the Faculty/ Director of the Centre/ Institute or designated staff of the Faculties/ Centres/ Institutes/ Schools will be issued to you;
- The suspension shall take immediate effect, i.e. in the current, un-ended semester in which you are at, plus the following semester; you may be subject to fee & financial policy.
- You will be barred from all Final Examinations if it is an on-going semester and the courses selected for the following semester will be void.

PROGRESSION AND AWARDS

15. Policies Governing Progression and Awards

15.0 General

You have to pass all the courses prescribed by the programme of study before being considered for graduation. Any failures must be re-attempted until a Pass is obtained (with the exception of the final year projects of certain degrees where these projects are generally only submitted once).

The duration of study with UCSI University may vary from time to time depending on the availability of the courses being offered, thus UCSI University shall not be held liable for any unforeseeable extension of time for programme completion. It shall be the onus of the student to plan his/her studies accordingly to the courses offered.

The maximum duration to complete a programme is:

- 2 years for Foundation (1 year)
- 4 years for Diploma (2 years)
- 5 years for undergraduate Degree (3 years)
- 6 years for undergraduate Degree (4 years)
- 7 years for undergraduate Degree (5 years)

If you have exceeded the duration of study of the programme you have registered for, you are required to submit an application to the university/faculty for the extension of your studies.

Any other conditions and requirements over and above the aforementioned will be decided by the respective Centres/Faculties/Institutes/Schools (e.g. conditions for year-to-year progression, or entry to the Final Year, etc.).

15.1 Classification of Honours Degrees

The computation of Honours classification is based on the Cumulative Grade Point Average (CGPA) obtained throughout the duration of study of a programme at UCSI University. Thus, it takes into account the grades earned for each module/course completed in the programme. The credits accompanying the grades will determine the classification at the completion of your study.

The following courses are excluded from the computation of CGPA:

- i. MQA compulsory courses
- ii. Courses without a grade point
- iii. English Requirement courses
- iv. Course(s) with credit(s) transferred from other institutions
- v. Failed courses which has been replaced and subsequently passed

Formula for the calculation of CGPA is as follows:

$$\frac{\sum (\text{course credit} \times \text{grade point})}{\sum \text{course credits}}$$

The grade points are in accordance to the Grade Legend as stated in clause 13.8.

The following table serves as a guide in equating classification to CGPA grades.

*Prior to May 2016 intake

*Effective from May 2016 intake

	Honours Classification	CGPA		Honours Classification	CGPA
1	First Class	3.75 and above	1	First Class	3.67 and above
2	Second Upper	3.00 – 3.74	2	Second Upper	3.00 – 3.66
3	Second Lower	2.50 – 2.99	3	Second Lower	2.50 – 2.99
4	Third	2.00 – 2.49	4	Third	2.00 – 2.49
5	Fail	0.00 – 1.99	5	Fail	0.00 – 1.99

The above classification applies to all programmes Centres/Faculties/Institutes/Schools with the exception of the Faculty of Medicine and Health Sciences and the Faculty of Pharmaceutical Science. The final awarding classification may differ accordingly to the

discretion of the University with the advice from the Centres/Faculties/Institutes/Schools staff in their process of reviewing the performance of each student throughout the entire programme. Extenuating factors of material significance may be taken into account in determining the classification if found to be appropriate by UEB. Likewise, other behaviours and conduct recorded throughout and during your study may be taken into account in the classification.

All decisions for classification of Honours are final upon submission by the UEB through the Senate for endorsement. CGPA scores outside the range indicated above will automatically be rounded off to the next higher score, unless otherwise advised by the Centres/Faculties/Institutes/Schools.

15.2 Progression of Study

The progression of studies occurs at three (3) levels:

- (i) Foundation/Diploma programme to undergraduate programme;
- (ii) Each year/level within the undergraduate programme; and
- (iii) The undergraduate programme to post-graduate programme.

The conditions for each level of progression are outlined below:

15.2.1 Progression from Foundation Programme to Undergraduate Degree Programme

Students are restricted to register a mixture of modules for the Foundation and Year 1 Degree. You must successfully complete the UCSI University Foundation Programme before progressing onto the undergraduate programmes (such progression is subject to having met the entry requirements of the selected programme).

Progression from the Foundation Programme to the Degree programme is not subject to completing all MOHE *Matapelajaran Wajib (compulsory course)* (unless you wish to exit immediately with a Certificate from the Foundation Programme upon completion of the Foundation Programme).

Students are often anxious to proceed to the next higher level in the course of their studies. The rush may often result in more harm than good to their learning process. To ensure the smooth progression of your studies, Diagrams 15.0 and 15.1 are set to guide and illustrate the different scenarios that may occur for you to continue with a partial progression while in your final semester of your foundation studies. Permutations that are not outlined below will be determined on a case-to-case basis and separately.

Partial progression is not applicable to international students. Completion of the foundation programme is required for the application of visa of the progression undergraduate programme.

15.2.2 Progression within the Undergraduate Degree Programme

Progression from one year to the next is governed by the respective Centres/Faculties/Institutes/Schools with their own internal policies and requirements. Generally, you must clear all *Matapelajaran Umum (compulsory course)* before you are allowed to embark on your Final Year study.

15.2.3 Progression from Undergraduate to Postgraduate Degree Programme

Progression of the above is subject to meeting the entry requirements of the postgraduate degree programme as outlined in the brochures of the intended programme.

21. PASSWORD POLICY AND GUIDELINES

21.1. General

Students are responsible for safeguarding their system access login and password credentials and must comply with the password parameters and standards identified in this policy.

Passwords must meet the complexity requirements outlined and must not be shared with or made available to anyone in any manner that is not consistent with this policy and procedure.

21.2. Purpose

Assigning unique user logins and requiring password protection is one of the primary safeguards to restrict access to the UCSI University network and the data stored within it to only authorized users. If a password is compromised, access to information systems can be obtained by an unauthorized user, either inadvertently or maliciously. Users are responsible for safeguarding against unauthorized access to their account, and as such, must conform to this policy in order to ensure passwords are kept confidential and are designed to be complex and difficult to breach. The parameters in this policy are designed to comply with University policy, legal and regulatory standards.

21.3. Responsibilities

Students are responsible for keeping passwords secure and confidential. As such, the followings principles must be adhered to for creating and safeguarding passwords:

21.3.1. Passwords must be changed immediately upon issuance for the first-use.

21.3.2. Passwords must never be shared with another student for any reason or in any manner not consistent with this policy. A shared or compromised password is a reportable Computer Services Department.

21.3.3. Students and other University personnel, must never ask anyone else for their password. If you are asked to provide your password to an individual or sing into a system and provide access to someone else under your login, you are obligated to report this to the Computer Services Department using one of the methods outlined in the Procedures section below.

21.3.4. Passwords must never be written down and left in a location easily accessible or visible to others. This includes both paper and digital formats on untagged (unsupported) devices. Passwords should not be stored in a web browser's password manager on an untagged device.

21.3.5. Students must never leave themselves logged into an application or system where someone else can unknowingly use their account.

21.3.6. Passwords must be unique and different from passwords used for other personal services (e.g. banking).

21.3.7. Passwords must meet the complexity requirements outlined in this policy.

21.3.8. Passwords must be changed regularly, as outlined in this policy, at the regularly scheduled time interval or sooner if there is suspicion of a compromise.

21.3.9. In the event a breach or compromise is suspected, the incident must be reported to Computer Services Department immediately using one of the methods outlined in the Procedures section below.

21.4. Password Requirements

The following parameters indicate the minimum requirements for passwords for all individual accounts where passwords are:

21.4.1. At least seven (7) characters.

21.4.2. Not based on anything somebody else could easily guess or obtain using person related information (e.g. names, telephone numbers, dates of birth, identification card numbers, etc.).

21.4.3. Not vulnerable to a dictionary attack (see Recommendations for Creating Compliant Passwords section).

21.4.4. A combination of at least one character from each of the following four listed character types (older password require at least one character from three of the following four types).

21.4.4.1. English uppercase letters (A-Z).

21.4.4.2. English lowercase letters (a-z).

21.4.4.3. Base 10 digits (0-9).

21.4.4.4. Non-alphanumeric (such as `~!@#\$\$%^&*()_+{|}\:;’<>.,?/ and space).

21.5. Recommendations for Creating Compliant Passwords

In order to create a password that is compliant with the parameters specified in this policy, use one of the three methods below.

21.5.1. Use a Passphrase

A passphrase is similar to a password, but it is generally longer and contains a sequences of words or other text to make the passphrase more memorable. A longer

passphrase that is combined with a variety of character types is exponentially harder to breach than a shorter password. However, it is important to note that passphrases that are based on commonly referenced quotes, lyrics, or other sayings are easily guessable. Passphrases should be unique to you.

21.5.1.1. Use at least seven (7) characters.

21.5.1.2. Incorporate the four (4) character types (a space or special character can be used to separate words or phrases in in order to add complexity).

21.5.1.3. Use a phrase that is easy to remember.

21.5.1.4. Abbreviate most of the words in the phrase to increase complexity.

21.5.1.5. Example:

- Phrase: “When I was five, I learned how to ride a bike”.
- Password: When I was 5, I learned to ride a bike.
- Phrase: “When I was five, I learned how to ride a bike”.
- Password: Whe1was5,Ilear2ridabik.

21.5.2. Use an Acronym

An acronym can be used to constitute a strong and compliant password by taking the first letter of each word in a phrase to form the password.

21.5.2.1. Incorporate the four character types (forming your phrase in sentence case with punctuation can be used to meet the requirements).

21.5.2.2. Use phrase that is easy to remember

21.5.2.3. Example:

- Phrase: “When I was five, I learned how to ride a bike”.
- Password: WIw5,Ilhwrab.

21.5.3. Use a Secret Code

A secret code can be used in conjunction with the previous methods simply by substituting letters for other numbers or symbols. Combining these methods will make it easy to incorporate the four character types in order to meet the password complexity requirements.

21.5.3.1. Use a phrase that is easy to remember.

21.5.3.2. Capitalize the first letter of every word.

21.5.3.3. Substitute letters for numbers or symbols.

21.5.3.4. Incorporate spaces or substitute with a different character.

21.5.3.5. Example:

- Phrase: “When I was five, I learned how to ride a bike”.
- Password: WhenIwa\$5,Ilh0wt0rab1k3.

A secret code can also be generated by using a keyboard pattern. Patterns can be generated by using geometric patterns, such as diagonal lines, series of lines, etc.

21.5.3.6. Use a pattern that is easy to remember.

21.5.3.7. Incorporate letters, numbers, and/or symbols.

21.5.3.8. Enter passwords with caution as patterns may be easily visible.

21.5.3.9. Examples:

- Pattern: a triangle starting with ‘z’ and incorporating an uppercase letter.
- Password: Zse4rfvcx
- Pattern: the third, sixth, and ninth keys of each row, with one row of uppercase letters.
- Password: 369eyoDHLcn.
- Pattern: a series of lines, starting with %, r, d, and b, with one row of uppercase letters.
- Password: %^&rtYDFGbnm.

21.6. Password Reset Options

Various options are available to assist users with changing a forgotten or expired password. The preferred and fastest method is through the use of the password management system. Personalized security questions must be setup in order to use this system to reset your password.

21.6.1. Password Self Service

Login to UCSI IIS portal with your Login ID and current password. If you have forgotten your password, you will be required to validate your identity by answering security

questions. Click “Request” in the middle of the screen. Create a new password that complies with the parameters on the screen and in this policy. Use one of the methods described above to create a compliant password. Once your password has been changed, your password will synchronize across any service that is controlled by the authentication system (e.g. Email, Window Logon, IIS Portal, LMS and etc.).

In the event your password cannot be reset via the IIS portal, you must contact CSD support using one of the methods below:

- In Person

Contact CSD support during normal business hours. Present your student identification card alongside your face to verify your identity. The agent will provide your temporary password to you over the phone and assist you with resetting it for future use.

21.7. Reporting a Suspected Compromise or Breach

If you believe your password has been compromised or if you have been asked to provide your password to another individual, promptly notify any of the following support teams:

- CSD Support
